Stylish Seaside Home!

This home has been renovated recently with our tropical climate in mind.

The addition of a full length front deck offers the perfect vantage point to catch cool ocean breezes while entertaining.

Flowing seamlessly from outdoors to indoors the deck gives way to the sleek cool white toned interior.

The modern galley style kitchen is tucked from view but is perfectly positioned to adjoin the living and dining spaces while glistening polished floors link all areas.

Internal stairs lead to the downstairs spaces which in turn lead out to the gardens and large sparkling in-ground pool.
