

More Than Meets The Eye

This lovely home sets the benchmark for any three bedroom homes in the area. With a beautifully renovated kitchen and bathroom it offers more than meets the eye.

At the entry is a small living/study nook/sunroom which leads through to the spacious open plan living/dining. The kitchen is large with plenty of bench space, cupboard space and modern appliances.

The home is fully air conditioned with beautiful polished timber floors throughout. Equally as impressive as the kitchen the bathroom is really modern with separate shower and bath.

Downstairs is a large room with second toilet - the home is not legal height but make a great kids toy room or teenagers retreat.
