

15 Seventh RAILWAY ESTATE QLD

2 1 1

This 2 bedroom cottage in the heart of Railway Estate which was built early in the century, would hold a lot of secrets.

Located less than 5 minutes from the city centre and near the intersection of Railway Avenue and Boundary Street, the home is nestled amongst other Queenslanders and newer mid density housing.

Character plus, the home sits on stumps that were originally under a home further down the street and are over 100 years old.

The neighbourhood is also unique with neighbours on one side 59 years in the same home, and two doors up 60 years (and born) in the same home. This is a neighbourhood that epitomises Townsville - a small town that has grown up but never lost its core values or sense of community.

She sits on one 809m² block of land on two lots on one title.

Renovate Remove Add or even go further and investigate the possibility of units - the possibilities are endless. (All subject to council approval).

Definitely worth an inspection -
